Grade level: 4

Language: English

Topic/unit/core selection: Energy

Please Conserve

By D. Boswell adapted by E. Thaddeus

I use energy every day
When I work and sleep and play
From the wind and fuel and sun
I use it till the day is done.

Please conserve, please conserve

I use heat when I am cold,
To cook my food and wash my clothes.
Heat comes from the sun you see,
Without it where would our world be?

Please conserve, please conserve

I use light in many ways,
The light comes from the sun in bright, hot rays.
We use sunlight to see by day,
We use lights at night to work and play.

Please conserve, please conserve

I use sound all the time
When I sing and make a rhyme.
Sound comes from vibrating waves,
And echoes in gigantic caves.

Please conserve, please conserve

I use electricity every day,
When I cook and clean and play.
There is circuit electricity and static too,
To run appliances for me and you.

Please conserve, please conserve
